

A LIVING GALLERY ACROSS THE CITY

Art for everyday life

Original art, hung where people already gather - then discovered, loved, and bought without the white-cube ritual.

ARTISTS

Hang in the wild

Living walls, real door traffic, 70% when it sells.

VENUES

Host a room

Matched local art, map presence, wall revenue.

ART LOVERS

Find & buy

See it on the wall. Take it home the same day.

THE IDEA

A city-wide gallery built from everyday rooms

Cafés, bars, hotels, and neighbourhood spaces already hold the footfall. Art Hawks is the network layer that matches artists to walls, makes hangs trustworthy, and turns a glance into a purchase.

01

Match

Venues brief and curate. Artists confirm. No cold-calling the café manager.

02

Hang

Mark hung on the wall - the work goes live on the map and the room page.

03

Discover

Guests scan a QR door: story, artist, price - right where they already are.

04

Collect

Buy on the spot. Staff verify with a QR. The work leaves with its person.

NOT ANOTHER FEED SHOP

Place-based art infrastructure: map → room → door → purchase → collection. Install truth, transparent splits, and a handover cafés can run without training a gallery desk.

FOR ARTISTS

Hang where people already gather

Stop waiting for scarce gallery representation. Put work on living walls - with light, noise, coffee, and time to look - and meet people at the door.

Living walls, not storage

Your catalogue leaves the portfolio and enters cafés, bars, and rooms on the map.

Real eyes at the door

Every wall QR opens your work. Scans, loves, and buy asks land where you can see them.

Mutual match

Venues swipe and curate for their walls. You confirm interest - co-owned, not cold-called.

HOW IT WORKS

1. Open your studio and upload works.
2. Respond when venues match your pieces.
3. Hang, place your QR, watch the pulse.
4. When it sells, your balance updates - buyer collects at the venue.

WHEN IT SELLS

70%

of the sale price credited to your balance through the platform.

Sold works stay visible under Found a home - proof the platform moves art into lives, not just listings.

FOR VENUES

Empty walls are quiet. Hung walls make people stay.

Host matched local art without running a gallery. Guests linger, scan, and return - and your room becomes a destination on the city map.

Marketing you don't invent

A hung wall gives guests a reason to look twice. QR doors open stories at the table.

Brief-first curation

Tell us how many works, the largest size you can hang, and the types that fit - then accept a shortlist.

Handover cafés can run

When a piece sells, staff verify payment with a QR - no Art Hawks login required.

HOW IT WORKS

1. Register or claim your space, then activate.
2. Curate or swipe; approve hangs; mark hung.
3. Print wall QRs; watch scan pulse; rotate.
4. Confirm collection when the owner closes the handover.

WALL FEE

15%

on sales while the work is showing on your walls. Finder's fee 5% may apply on eligible past hangs.

Past exhibits stay on your room page - history that builds trust without cluttering what's showing now.
